Department of BSc and MSc Computer Science

TEKLOGICA 2022-23

Report

Name of the Event: Intercollegiate Software project competition

Date: 17th February 2022

No. of Participants: 06 Students

As the part of the Annual event Teklogica an Intercollegiate was conducted Software project competition to help the students to develop and exhibit their creativity and their programming skill sets.

Students from different colleges exhibited their software system developed such as

- 1. Drum Kit Based on key strokes the music was played
- 2. Crime Analysis using Power Bi
- 3.Email Automation for an inventory management using Python
- 4. Cryptoverse using Python

This event was judged by Asst. Prof Rekha Kankariya and Ashwini Kulkarni.

Report – Python Programming Competition

The Department of Computer Science organized an annual event "Teklogica" intercollegiate competition on 17th Feb 2023.

As a part of event the computer science department organized a programming competition in Python language which was conducted in computer science lab of St. Mira's College.

There were 2 participants and both qualified in first round to enter into second round. The second round ended in a tie in which first position was decided on the basis of executing Python program with maximum functionality.

Floyd Fernandes of Christ College secured first prize whereas Ms Sonali Satpute of Christ College secured prize.

EVENT: CODE SPRINT-C PROGRAMMING

Report

The departmental Intercollegiate event TEKLOGICA 2022-23 was held on 17th Feb 2023. As a part of this event code sprint (C programming) competition was scheduled for testing the knowledge of C-programming skills of B.Sc (C.S) and M.Sc students. There were two rounds for testing the skills of students. The activity benefited students to test and enhance their skills and knowledge of C programming in practical. Total 22 students have participated in this event.
