Career counseling sessions were organized by Ms. Swatee Sarwate in group sessions as well as through individual guidance on careers in computer science for further studies and how to study abroad. The guidance was offered primarily to students of B.Sc but was open to other students as well. Through this career counseling programme, Ms. Sarwate also suggested how to opt for a career in one's life depending on the capabilities, interests and potential of individual students. Students were guided on how to focus on the chosen career and what are the efforts to be put in to make that dream true.

These sessions made students aware about different career opportunities available to the students and helped them understand how career counseling can help them proceed in their career positively. Individual sessions with students helped in identification of strengths and weaknesses of each student in order to guide him/ her about suitable career fields, the skills that are required to be developed, new opportunities etc. Students were provided information regarding career fields, admission process, future scope, emerging trends in specific careers, amount of hard work required, and opportunities. In year 2022-23 total 72 students took advantage of the same.
